## Welcome to our Annual Production Sale.

The cattle industry is full of optimism and it appears this will remain for the years to come. High quality cattle are paying premiums and are now in big demand on the rail and also the sale ring. We are very confident this offering meets the needs to help produce these requirements.

As many of you know for over 20 years we have been feeding steers and some heifers out of our commercial herd at Poky Feeders in Kansas. We feel the individual carcass data we receive is very valuable as a tool in our breeding programs in both registered herd along with the commercial herds. The actual dollar amount per head on the grid payments have increased substantially over the years.

This year 115 bulls will be sold along with 180 commercial bangs vaccinated heifers. These yearlings have all been through health evaluation by Dr. Steven Hjartarson, DVM. The bulls will all be semen tested before delivery and guaranteed sound. The bulls have the enhanced EPD's with Angus GS and the results will be available before sale day at [apexangus.com](http://apexangus.com).

We sure hope you can make the sale. Come early, view the cattle and have a super lunch before the sale. You can also bid online with Northern Video if you just can't make it.

Always remember we are dedicated in producing seed stock that will enhance the commercial cattleman from birth to plate.

Sincerely,  
From all of us at  
Apex Angus

# Selling First 180 FANCY SOLID FOUNDATION OPEN HEIFERS

These first-class very feminine deep bodied heifers carry peak performance cowherd building traits. Moderately framed, quiet dispositions, and Added-Value carcass returns.

Our vaccination's program is directed by Dr. Steven Hjartarson, DVM. Bangs vaccinations - December.

## Compiling Superior Outcross Genetics

Apex's battery of high performance natural service sires are used in both cowherds. When making Herd Bull Selections within herd and/or introducing outside genetics, Apex's decisions are based on the bulls ability to gain, soundness, scrotal development, docility, conformation and a good strong maternal background.

The Apex Angus cowherd does quite a quick turn around. At 15 months of age heifers and yearling bulls are in the breeding pastures. The steers are already on the kill floor furnishing PRIME and CHOICE carcasses.

The bulls and heifers offered in the 3/4/25 sale will keep on doing for you what they've done for years for Apex Angus, an honest and trustworthy job.

## SALE NOTE:

AGI's Angus GS was inadvertently not included at the time of first parentage verification test. The second test of enhanced EPD's will be available possibly February 26th at [www.apexangus.com](http://www.apexangus.com) and Sale Day 03/04/25.

### **FIRST YEAR BREEDING GUARANTEE**

All bulls selling for \$5,000.00 or more will be covered 50% by Apex Angus if they are injured during their first breeding season. This guarantee does not include death as that can be insured for. Breeding season is defined as a 60-day period following the first turnout of bulls. Fifty percent of the value of the injured bull, minus one-half the salvage value, will be given credit in a future Apex Angus sale or towards a replacement bull if one is available. Salvage value, if any, will be split equally between Apex Angus and the buyer. All injured bulls must be diagnosed by a veterinarian. We also reserve the right to a second opinion by a veterinarian of our choice. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made by September 2, 2025.
